

STEAM - WATER MIXERS MX20

DESCRIPTION

The steam/water ADCAMix MX20 mixers provide a cheap and instantaneous source of low pressure hot water, by using existing steam and cold water supplies.

The mixer incorporates a safety device, to ensure that live steam cannot be accidentally ejected even if, for some reason, the cold water supply fails.

The temperature of water at the outlet of the ADCAMix is easily controlled by using water and steam valves fitted to the inlets.
